# VOLUME 44 • SUBJECT INDEX

**abdominal surgery,** Total parenteral nutrition with glutamine dipeptide shortened hospital stays and improved immune status and nitrogen economy after major abdominal surgery: *abstract*, **155**

**abscess,** Transabdominal bowel sonography for the detection of intestinal complications in Crohn's disease: *abstract*, **112**

**absorption,** Geography of intestinal permeability and absorption, **483**
Indirect evidence for cholinergic inhibition of intestinal bicarbonate absorption in humans, **353**

**acetaldehyde,** Ciprofloxacin decreases the rate of ethanol elimination in humans, **347**

**acetylsalicylic acid,** Different intestinal permeability patterns in relatives and spouses of patients with Crohn's disease: an inherited defect in mucosal defence?, **96**

**achalasia,** Back to the whale bone?: *commentary*, **149**
Botulinum toxin versus pneumatic dilatation in the treatment of achalasia: a randomised trial, **231**

**acid secretion,** *Helicobacter pylori* infection potentiates the inhibition of gastric acid secretion by omeprazole, **468**
Omeprazole: *Helicobacter pylori* makes thee greater yet: *commentary*, **448**

**acromegaly,** Colorectal neoplasia in acromegaly: *leader*, **585**
Prolonged large bowel transit increases serum deoxycholic acid: a risk factor for octreotide induced gallstones, **675**

**actin filaments,** *Bacteroides fragilis* toxin 2 damages human colonic mucosa in vitro, **504**

**acute pancreatitis,** Can we ever be certain of the diagnosis of acute pancreatitis?: *letter*, **765**
Guidelines for treatment of acute pancreatitis: *letter*, **580**
Phospholipase $A_2$ and acute pancreatitis in rats: *letter*, **297**
Underestimation of acute pancreatitis: patients with only a small increase in amylase/lipase levels can also have or develop severe acute pancreatitis, **542**

**adenocarcinoma,** Barrett's oesophagus and colorectal neoplasia: scope for screening?: *commentary*, **775**
Expression of the insulin-like growth factors and their receptors in adenocarcinoma of the colon, **704**
No association between colon cancer and adenocarcinoma of the oesophagus in a population based cohort study in Sweden, **819**

**adenoma,** Clinical spectral characterisation of colonic mucosal lesions using autofluorescence and δ aminolevulinic acid sensitisation, **511**

**adenomatous polyposis coli gene,** Cost comparison of predictive genetic testing versus conventional clinical screening for familial adenomatous polyposis, **698**

**adenomatous polyposis coli tumour suppressor gene,** The adenomatous polyposis coli tumour suppressor gene regulates c-*MYC* transcription in colon cancer cells: *science alert*, **596**

**adenomatous polyps,** Incidence of rectosigmoid adenomatous polyps in subjects without prior colorectal adenoma or cancer: a prospective cohort study, **372**

**adenovirus,** Adenovirus mediated p53 tumour suppressor gene therapy for human gastric cancer cells in vitro and in vivo, **366**
Efficient gene delivery to the inflamed colon by local administration of recombinant adenoviruses with normal or modified fibre structure, **800**

**adverse drug reaction,** Mesalazine (5-aminosalicylic acid) induced chronic hepatitis, **886**

**aetiology,** Mind over matter in the postinfective irritable bowel: *commentary*, **306**

**AIDS,** No relationship between gastric pH, small bowel bacterial colonisation, and diarrhoea in HIV-1 infected patients, **101**

**alcohol,** *HFE* and alcoholic liver disease: *letter*, **439**

**alcohol dehydrogenase,** Ciprofloxacin decreases the rate of ethanol elimination in humans, **347**

**alcoholic cirrhosis,** Cardiac function and haemodynamics in alcoholic cirrhosis and effects of the transjugular intrahepatic portosystemic stent shunt, **743**
Single portal pressure measurement predicts survival in cirrhotic patients with recent bleeding, **264**

**alendronate,** Alendronate increased bone mineral density but did not reduce new fractures in glucocorticoid induced osteoporosis: *abstract*, **780**

**alginate,** What keeps hepatocytes on the straight and narrow? Maintaining differentiated function in the liver: *leader*, **443**

**amino acids,** Effect of intravenous amino acids on interdigestive antroduodenal motility and small bowel transit time, **240**

**5-aminosalicylic acid,** 5-Aminosalicylic acid prevents oxidant mediated damage of glyceraldehyde-3-phosphate dehydrogenase in colon epithelial cells, **180**
Anti-inflammatory drugs and endothelial cell adhesion molecule expression in murine vascular beds, **186**
Mesalazine (5-aminosalicylic acid) induced chronic hepatitis, **886**

**ammonia,** *Helicobacter pylori* infection potentiates the inhibition of gastric acid secretion by omeprazole, **468**
Omeprazole: *Helicobacter pylori* makes thee greater yet: *commentary*, **448**

**amylase,** Underestimation of acute pancreatitis: patients with only a small increase in amylase/lipase levels can also have or develop severe acute pancreatitis, **542**

**anal fissures,** Randomised controlled trial shows that glyceryl trinitrate heals anal fissures, higher doses are not more effective, and there is a high recurrence rate, **727**

**anorexia,** Divergency of leptin response in intestinal inflammation: *leader*, **588**

**antibiotic,** Bovine immunoglobulin concentrate-*Clostridium difficile* retains *C difficile* toxin neutralising activity after passage through the human stomach and small intestine, **212**

**antibiotic uptake,** Characterisation of penicillin G uptake in human small intestinal brush border membrane vesicles, **620**

**antibodies,** Relation between GB virus C/hepatitis G virus and fulminant hepatic failure may be secondary to treatment with contaminated blood and/or blood products, **274**

**anti-colon antibodies,** Detection of anti-colon antibodies in inflammatory bowel disease using human cultured colonic cells, **196**

**antigliadin antibodies,** Identification of common epitopes on gliadin, enterocytes, and calreticulin recognised by antigliadin antibodies of patients with coeliac disease, **168**

**anti-inflammatory therapy,** Activation of nuclear factor κB as a target for anti-inflammatory therapy: *science alert*, **309**

**antiviral treatment,** Hepatitis C virus recurrence after liver transplantation: *review*, **575**

**antroduodenal motility,** Effect of intravenous amino acids on interdigestive antroduodenal motility and small bowel transit time, **240**

**apolipoprotein E,** The role of apolipoprotein E and glucose intolerance in gallstone disease in middle aged subjects, **557**

**apoptosis,** Expression of Fas ligand by human gastric adenocarcinomas: a potential mechanism of immune escape in stomach cancer, **156**
Role of apoptosis induced by *Helicobacter pylori* infection in the development of duodenal ulcer, **456**

**aspirin,** Anti-inflammatory drugs and variceal bleeding: a case-control study, **270**

**atrophic gastritis,** Accuracy of screening for gastric cancer using serum pepsinogen concentrations, **693**
Effect of *Helicobacter pylori* infection and its eradication on cell proliferation, DNA status, and oncogene expression in patients with chronic gastritis, **789**

**autoimmune,** High mobility group (HMG) non-histone chromosomal proteins HMG1 and HMG2 are significant target antigens of perinuclear anti-neutrophil cytoplasmic antibodies in autoimmune hepatitis, **867**

**autoimmune hepatitis,** ANCAs away: *commentary*, **776**

**azathioprine,** Is mycophenolate mofetil a new alternative in the treatment of inflammatory bowel disease?: *commentary*, **592**
Randomised trial of mycophenolate mofetil versus azathioprine for treatment of chronic active Crohn's disease, **625**

***B fragilis* toxin,** *Bacteroides fragilis* toxin 2 damages human colonic mucosa in vitro, **504**

**bacteria,** Mast cells are an important cellular source of tumour necrosis factor α in human intestinal tissue, **643**

**bacterial overgrowth,** No relationship between gastric pH, small bowel bacterial colonisation, and diarrhoea in HIV-1 infected patients, **101**

**balsalazide,** Balsalazide led to greater remission rates and tolerance than mesalamine in acute ulcerative colitis: *abstract*, **455**

**barium oesophagram,** Botulinum toxin versus pneumatic dilatation in the treatment of achalasia: a randomised trial, **231**

**barostat,** Perception of and adaptation to rectal isobaric distension in patients with faecal incontinence, **687**

**Barrett's metaplasia,** Barrett's oesophagus and colorectal neoplasia: scope for screening?: *commentary*, **775**
No association between colon cancer and adenocarcinoma of the oesophagus in a population based cohort study in Sweden, **819**

**Barrett's oesophagus,** Toxic bile acids in gastro-oesophageal reflux disease: influence of gastric acidity, **598**

**basement membrane,** Phenotypic and functional characterisation of myofibroblasts, macrophages, and lymphocytes migrating out of the human gastric lamina propria following the loss of epithelial cells, **323**

**Bcl10,** Aggressive mucosa associated lymphoid tissue lymphomas are associated with mutations in *Bcl10* : *science alert*, **778**

**belching,** Gas and liquid reflux during transient lower oesophageal sphincter relaxation: *letter*, **897**
Patterns of gas and liquid reflux during transient lower oesophageal sphincter relaxation: a study using intraluminal electrical impedance, **47**

**benzofuran,** Selective stimulation of colonic transit by the benzofuran $5HT_4$ agonist, prucalopride, in healthy humans, **682**

**bile,** Effect of long term simvastatin administration as an adjunct to ursodeoxycholic acid: evidence for a synergistic effect on biliary bile acid composition but not on serum lipids in humans, **552**
Gallstones: an intestinal disease?: *review,* **435**
**bile acids,** Double reflux: double trouble: *commentary,* **590**
Toxic bile acids in gastro-oesophageal reflux disease: influence of gastric acidity, **598**
**bile duct calculi,** Use of magnetic resonance cholangiography in the diagnosis of choledocholithiasis: prospective comparison with a reference imaging method, **118**
**bile duct obstruction,** MRCP and the diagnosis of suspected bile duct obstruction: *letter,* **765**
**biliary stricture,** Ductal dilatation and stenting for residual hepatolithiasis: *letter,* **581**
**bone mineral density,** Alendronate increased bone mineral density but did not reduce new fractures in glucocorticoid induced osteoporosis: *abstract,* **780**
Elevated carboxy terminal cross linked telopeptide of type I collagen in alcoholic cirrhosis: relation to liver and kidney function and bone metabolism, **417**
Predicting bone loss following orthotopic liver transplantation, **430**
**bone resorption,** Predicting bone loss following orthotopic liver transplantation, **430**
**botulinum toxin,** Back to the whale bone?: *commentary,* **149**
Botulinum toxin versus pneumatic dilatation in the treatment of achalasia: a randomised trial, **231**
**bowel sonography,** Transabdominal bowel sonography for the detection of intestinal complications in Crohn's disease, **112**
**brush border membrane,** The effect of epidermal growth factor on brush border surface area and function in the distal remnant following resection in the rabbit, **26**
**brush border membrane vesicles,** Characterisation of penicillin G uptake in human small intestinal brush border membrane vesicles, **620**
**Budd-Chiari syndrome,** Budd-Chiari syndrome: blocked veins, open mind: *commentary,* **452**
Managing Budd-Chiari syndrome: a retrospective review of percutaneous hepatic vein angioplasty and surgical shunting, **568**

**C fibres,** Vagotomy inhibits the jejunal fluid secretion activated by luminal ileal *Escherichia coli* STa in the rat in vivo, **615**
**$^{14}$C urea breath test,** The *Helicobacter pylori* breath test: a surrogate marker for peptic ulcer disease in dyspeptic patients: *letter,* **582**
**cancer registries,** Evidence of improving survival of patients with rectal cancer in France: a population based study, **377**
**carbon dioxide,** Increased gastric $P_{CO_2}$ during exercise is indicative of gastric ischaemia: a tonometric study, **163**
**carboxy terminal cross linked telopeptide of type I collagen,** Elevated carboxy terminal cross linked telopeptide of type I collagen in alcoholic cirrhosis: relation to liver and kidney function and bone metabolism, **417**
**catabolism,** Serum hepatocyte growth factor as an index of extensive catabolism of patients awaiting liver transplantation, **862**
**cathartics,** Comparison of a low dose polyethylene glycol electrolyte solution with lactulose for treatment of chronic constipation, **226**
**cationic trypsinogen,** Genes means pancreatitis: *commentary,* **150**
Screening for mutations of the cationic trypsinogen gene: are they of relevance in chronic alcoholic pancreatitis?, **413**
**cell proliferation,** The effects of glutamine on intestinal epithelial cell proliferation in parenterally fed rats, **608**
**chemokines,** Enhanced production of monocyte chemotactic protein 3 in inflammatory bowel disease mucosa, **629**
**chemotaxis,** Giardia induces proliferation and interferon $\gamma$ production by intestinal lymphocytes, **342**
**cholecystectomy,** A requiem for the cholecystokinin provocation test?: *letter,* **896**
Cholecystokinin provocation tests: *letter,* **580**
Requiem for the cholecystokinin provocation test: *letter,* **580**
**cholecystokinin,** A requiem for the cholecystokinin provocation test?: *letter,* **896**
Cholecystokinin infusion and gall bladder dysfunction: *letter,* **581**
Cholecystokinin provocation tests: *letter,* **580**
Requiem for the cholecystokinin provocation test: *letter,* **580**
**cholera toxin,** Proabsorptive and prosecretory roles for nitric oxide in cholera toxin induced secretion, **33**
**cholesterol,** Gallstones: an intestinal disease?: *review,* **435**
The role of apolipoprotein E and glucose intolerance in gallstone disease in middle aged subjects, **557**
**cholinergic,** Indirect evidence for cholinergic inhibition of intestinal bicarbonate absorption in humans, **353**
**cholinergic blockade,** Cholinergic blockade inhibits gastro-oesophageal reflux and transient lower oesophageal sphincter relaxation through a central mechanism, **603**
**chromosomal proteins,** High mobility group (HMG) non-histone chromosomal proteins HMG1 and HMG2 are significant target antigens of perinuclear anti-neutrophil cytoplasmic antibodies in autoimmune hepatitis, **867**
**chronic active hepatitis,** The natural history of histologically proved drug induced liver disease, **731**
**chronic hepatitis,** Mesalazine (5-aminosalicylic acid) induced chronic hepatitis, **886**
**chronic inflammation,** The role of psychological and biological factors in postinfective gut dysfunction, **400**
**chronic liver disease,** Elevated carboxy terminal cross linked telopeptide of type I collagen in alcoholic cirrhosis: relation to liver and kidney function and bone metabolism, **417**
Single portal pressure measurement predicts survival in cirrhotic patients with recent bleeding, **264**
**chronic pancreatitis,** Chronic pancreatitis and mutations of the cystic fibrosis gene: *science alert,* **8**
Faecal elastase 1 in chronic pancreatitis: *letter,* **298**
**ciprofloxacin,** Ciprofloxacin decreases the rate of ethanol elimination in humans, **347**
**cirrhosis,** Anti-inflammatory drugs and variceal bleeding: a case-control study, **270**
Clinical course and risk factors of hepatitis C virus related liver disease in the general population: report from the Dionysos study, **874**
Gastric antral vascular ectasia in cirrhotic patients: absence of relation with portal hypertension, **739**
Hepatic and splanchnic nitric oxide activity in patients with cirrhosis, **749**
Thrombopoietin concentrations are low in patients with cirrhosis and thrombocytopenia and are restored after orthotopic liver transplantation, **754**
**cirrhotic cardiomyopathy,** Cardiac function and haemodynamics in alcoholic cirrhosis and effects of the transjugular intrahepatic portosystemic stent shunt, **743**
**cisplatin,** Cisplatin impairs fluid and electrolyte absorption in rat small intestine: a role for 5-hydroxytryptamine, **174**
**c-kit,** Interstitial cells of Cajal in the human fetal small bowel as shown by c-kit immunohistochemistry, **65**
**clarithromycin,** Direct detection of *Helicobacter pylori* resistance to macrolides by a polymerase chain reaction/DNA enzyme immunoassay in gastric biopsy specimens, **463**
*Helicobacter pylori* resists arrest: *commentary,* **447**
**clinical trial,** Validation of a specific quality of life questionnaire for functional digestive disorders, **527**
***Clostridium difficile***, Bovine immunoglobulin concentrate-*Clostridium difficile* retains *C difficile* toxin neutralising activity after passage through the human stomach and small intestine, **212**
**c-*MYC* transcription,** The adenomatous polyposis coli tumour suppressor gene regulates c-*MYC* transcription in colon cancer cells: *science alert,* **596**
**coeliac disease,** Cross-reacting antibodies in coeliac disease?: *commentary,* **151**
Identification of common epitopes on gliadin, enterocytes, and calreticulin recognised by antigliadin antibodies of patients with coeliac disease, **168**
Increased expression of mRNA for matrix metalloproteinases-1 and -3 and tissue inhibitor of metalloproteinases-1 in intestinal biopsy specimens from patients with coeliac disease, **17**
Indirect evidence for cholinergic inhibition of intestinal bicarbonate absorption in humans, **353**
PBC and the gut: the villi atrophy, the plot thickens: *commentary,* **594**
Risk of primary biliary liver cirrhosis in patients with coeliac disease: Danish and Swedish cohort data, **736**
**coffee consumption,** Review: substantial coffee consumption was associated with a lower risk of colorectal cancer in the general population: *abstract,* **597**
**colitis,** Efficient gene delivery to the inflamed colon by local administration of recombinant adenoviruses with normal or modified fibre structure, **800**
Trefoil peptide TFF2 (spasmolytic polypeptide) potently accelerates healing and reduces inflammation in a rat model of colitis, **636**
**collagen I,** Increased expression of mRNA for matrix metalloproteinases-1 and -3 and tissue inhibitor of metalloproteinases-1 in intestinal biopsy specimens from patients with coeliac disease, **17**
**collagenous colitis,** Collagenous gastritis and collagenous colitis: a report with sequential histological and ultrastructural findings, **881**
**collagenous gastritis,** Collagenous gastritis and collagenous colitis: a report with sequential histological and ultrastructural findings, **881**
**colon,** Clinical spectral characterisation of colonic mucosal lesions using autofluorescence and $\delta$ aminolevulinic acid sensitisation, **511**
Collagenous gastritis and collagenous colitis: a report with sequential histological and ultrastructural findings, **881**
Dietary polyamines are essential luminal growth factors for small intestinal and colonic mucosal growth and development, **12**
Efficient gene delivery to the inflamed colon by local administration of recombinant adenoviruses with normal or modified fibre structure, **800**
Expression of the insulin-like growth factors and their receptors in adenocarcinoma of the colon, **704**
Macromolecular transport across the rabbit proximal and distal colon, **218**
Modulation of distal colonic epithelial barrier function by dietary fibre in normal rats, **394**

Potassium secretion in rat distal colon during dietary potassium loading: role of pH regulated apical potassium channels, **40**
Selective stimulation of colonic transit by the benzofuran $5HT_4$ agonist, prucalopride, in healthy humans, **682**
**colon cancer,** Barrett's oesophagus and colorectal neoplasia: scope for screening?: *commentary*, **775**
Beans means lectins: *commentary*, **593**
*Vicia faba* agglutinin, the lectin present in broad beans, stimulates differentiation of undifferentiated colon cancer cells, **709**
No association between colon cancer and adenocarcinoma of the oesophagus in a population based cohort study in Sweden, **819**
The adenomatous polyposis coli tumour suppressor gene regulates c-*MYC* transcription in colon cancer cells: *science alert*, **596**
**colonic bacteria,** Ciprofloxacin decreases the rate of ethanol elimination in humans, **347**
**colonic lavage,** Molecular screening of patients with long standing extensive ulcerative colitis: detection of p53 and Ki-*ras* mutations by single strand conformation polymorphism analysis and differential hybridisation in colonic lavage fluid, **822**
**colonic mucosa,** Excess nitric oxide in ulcerative colitis may be generated by nitric oxide synthase independent pathways: *letter*, **441**
**colonic polyps,** Incidence of rectosigmoid adenomatous polyps in subjects without prior colorectal adenoma or cancer: a prospective cohort study, **372**
**colonography,** Computed tomography colonography (virtual colonoscopy): a new method for colorectal screening: *leader*, **301**
**colonoscopic surveillance,** Colonoscopic surveillance in ulcerative colitis: *letter*, **579**
**colorectal cancer,** Computed tomography colonography (virtual colonoscopy): a new method for colorectal screening: *leader*, **301**
Expression and activity of mitogen activated protein kinases in human colorectal carcinoma, **834**
Review: substantial coffee consumption was associated with a lower risk of colorectal cancer in the general population: *abstract*, **597**
**colorectal neoplasia,** Colorectal neoplasia in acromegaly: *leader*, **585**
**computed tomography,** Computed tomography colonography (virtual colonoscopy): a new method for colorectal screening: *leader*, **301**
**constipation,** Comparison of a low dose polyethylene glycol electrolyte solution with lactulose for treatment of chronic constipation, **226**
Rectal biopsy for diagnosis of intestinal neuronal dysplasia in children: a prospective multicentre study on interobserver variation and clinical outcome, **853**
**constitutive nitric oxide synthase,** Hepatic and splanchnic nitric oxide activity in patients with cirrhosis, **749**
**cost analysis,** Cost comparison of predictive genetic testing versus conventional clinical screening for familial adenomatous polyposis, **698**
**Crohn's disease,** Anticipating the onset of inflammatory bowel disease: *commentary*, **773**
Biased $J_H$ usage in plasma cell immunoglobulin gene sequences from colonic mucosa in ulcerative colitis but not in Crohn's disease, **382**
Crohn's disease severity in familial and sporadic cases, **91**
Enhanced production of monocyte chemotactic protein 3 in inflammatory bowel disease mucosa, **629**
Ileal pouch-anal anastomosis for Crohn's disease: *letter*, **440**
Ileal pouch-anal anastomosis for Crohn's disease: *letter*, **896**
Is mycophenolate mofetil a new alternative in the treatment of inflammatory bowel disease?: *commentary*, **592**
Linkage of Crohn's disease to the major histocompatibility complex (MHC) region is detected by multiple non-parametric analyses, **519**
Measles virus and Crohn's disease: *letter*, **896**
Paroxysmal nocturnal haemoglobinuria mimicking Crohn's disease , **889**
Peripheral arthropathies in inflammatory bowel disease: *letter*, **439**
Randomised trial of mycophenolate mofetil versus azathioprine for treatment of chronic active Crohn's disease, **625**
Smoking, use of oral contraceptives, and medical induction of remission were risk factors for relapse in Crohn's disease: *abstract*, **311**
Transabdominal bowel sonography in Crohn's disease: *commentary*, **6**
Why children with inflammatory bowel disease are diagnosed at a younger age than their affected parent, **808**
**Crohn's disease complications,** Transabdominal bowel sonography for the detection of intestinal complications in Crohn's disease, **112**
**cross reactive antibodies,** Cross-reacting antibodies in coeliac disease?: *commentary*, **151**
**cross reactivity,** Identification of common epitopes on gliadin, enterocytes, and calreticulin recognised by antigliadin antibodies of patients with coeliac disease, **168**
**cut off point,** Accuracy of screening for gastric cancer using serum pepsinogen concentrations, **693**
**cyctic fibrosis,** Chronic pancreatitis and mutations of the cystic fibrosis gene: *science alert*, **8**
**cystic fibrosis,** Immunoreactive pancreatic Reg protein in sera from cystic fibrosis patients with and without pancreatic insufficiency, **545**
Percutaneous endoscopic gastrostomy feeding in patients with cystic fibrosis, **87**
**cytokine,** Cytokine regulation of epithelial permeability and ion transport: *review*, **283**
**cytokines,** New kids on the block: pancreatic stellate ceils enter the fibrogenesis world: *commentary*, **451**
Pancreatic stellate cells are activated by proinflammatory cytokines: implications for pancreatic fibrogenesis, **534**

**3-D culture,** What keeps hepatocytes on the straight and narrow? Maintaining differentiated function in the liver: *leader*, **443**
**deoxycholic acid,** Prolonged large bowel transit increases serum deoxycholic acid: a risk factor for octreotide induced gallstones, **675**
**development,** Interstitial cells of Cajal in the human fetal small bowel as shown by c-kit immunohistochemistry, **65**
Notable postnatal alterations in the myenteric plexus of normal human bowel, **666**
**dexamethasone,** Anti-inflammatory drugs and endothelial cell adhesion molecule expression in murine vascular beds, **186**
**diabetes,** The role of apolipoprotein E and glucose intolerance in gallstone disease in middle aged subjects, **557**
**diagnostics,** Clinical spectral characterisation of colonic mucosal lesions using autofluorescence and δ aminolevulinic acid sensitisation, **511**
**diarrhoea,** Bovine immunoglobulin concentrate-*Clostridium difficile* retains *C difficile* toxin neutralising activity after passage through the human stomach and small intestine, **212**
No relationship between gastric pH, small bowel bacterial colonisation, and diarrhoea in HIV-1 infected patients, **101**
**diclofenac,** The natural history of histologically proved drug induced liver disease, **731**
**dietary potassium,** Potassium secretion in rat distal colon during dietary potassium loading: role of pH regulated apical potassium channels, **40**
**differentiation,** Beans means lectins: *commentary*, **593**
*Vicia faba* agglutinin, the lectin present in broad beans, stimulates differentiation of undifferentiated colon cancer cells, **709**
Modulation of distal colonic epithelial barrier function by dietary fibre in normal rats, **394**
**digestive disorders,** The quality of quality of life: *commentary*, **450**
Validation of a specific quality of life questionnaire for functional digestive disorders, **527**
**Dionysos,** Clinical course and risk factors of hepatitis C virus related liver disease in the general population: report from the Dionysos study, **874**
**disease progression,** The natural course of hepatitis C virus infection 18 years following an epidemic outbreak of non-A, non-B hepatitis in a plasmapheresis centre, **563**
**distension,** Perception of and adaptation to rectal isobaric distension in patients with faecal incontinence, **687**
**diversion colitis,** Diversion colitis: a trigger for ulcerative colitis in the in-stream colon?, **279**
**diversity region,** Biased $J_H$ usage in plasma cell immunoglobulin gene sequences from colonic mucosa in ulcerative colitis but not in Crohn's disease, **382**
**drugs,** The natural history of histologically proved drug induced liver disease, **731**
**duodenal ulcer,** Role of apoptosis induced by *Helicobacter pylori* infection in the development of duodenal ulcer, **456**
**dyspepsia,** The *Helicobacter pylori* breath test: a surrogate marker for peptic ulcer disease in dyspeptic patients: *letter*, **582**
The quality of quality of life: *commentary*, **450**
Validation of a specific quality of life questionnaire for functional digestive disorders, **527**
**dysphagia,** Back to the whale bone?: *commentary*, **149**

**early gastric cancer,** A blind comparison of the effectiveness of endoscopic ultrasonography and endoscopy in staging early gastric cancer, **361**
**ectodomain shedding,** Proteolytic release of membrane bound intercellular regulators: *science alert*, **454**
**editorial,** *Gut* in 1999 : *editorial*, **1**
**electrohydraulic lithrotripsy,** Ductal dilatation and stenting for residual hepatolithiasis: *letter*, **581**
**embryogenesis,** Expression of endothelin 3 by mesenchymal cells of embryonic mouse caecum, **246**
**endoscopic gastroplasty,** An ambulant porcine model of acid reflux used to evaluate endoscopic gastroplasty, **782**
**endoscopic retrograde cholangiography,** Use of magnetic resonance cholangiography in the diagnosis of choledocholithiasis: prospective comparison with a reference imaging method, **118**
**endoscopic ultrasonography,** A blind comparison of the effectiveness of endoscopic ultrasonography and endoscopy in staging early gastric cancer, **361**
**endoscopic ultrasound,** Endoscopic ultrasound guided fine needle aspiration biopsy: a large single centre experience, **720**
**endoscopy,** A blind comparison of the effectiveness of endoscopic ultrasonography and endoscopy in staging early gastric cancer, **361**

The *Helicobacter pylori* breath test: a surrogate marker for peptic ulcer disease in dyspeptic patients: *letter*, **582**
**endosonography,** Endoscopic ultrasound guided fine needle aspiration biopsy: a large single centre experience, **720**
**endothelin 3,** Expression of endothelin 3 by mesenchymal cells of embryonic mouse caecum, **246**
**endothelins,** Endothelins, pseudo-obstruction and Hirschsprung's disease: *commentary*, **148**
**energy expenditure,** Gastric leptin: *science alert*, **153**
**enteral nutrition,** Percutaneous endoscopic gastrostomy feeding in patients with cystic fibrosis, **87**
**enteric nervous system,** Expression of endothelin 3 by mesenchymal cells of embryonic mouse caecum, **246**
**enterocyte autoantigens,** Identification of common epitopes on gliadin, enterocytes, and calreticulin recognised by antigliadin antibodies of patients with coeliac disease, **168**
**environment,** Different intestinal permeability patterns in relatives and spouses of patients with Crohn's disease: an inherited defect in mucosal defence?, **96**
**environmental factors,** Crohn's disease severity in familial and sporadic cases, **91**
**enzyme histochemistry,** Rectal biopsy for diagnosis of intestinal neuronal dysplasia in children: a prospective multicentre study on interobserver variation and clinical outcome, **853**
**epidemiology,** Incidence of rectosigmoid adenomatous polyps in subjects without prior colorectal adenoma or cancer: a prospective cohort study, **372**
PBC and the gut: the villi atrophy, the plot thickens: *commentary*, **594**
Risk of primary biliary liver cirrhosis in patients with coeliac disease: Danish and Swedish cohort data, **736**
**epithelial cells,** Enhanced production of monocyte chemotactic protein 3 in inflammatory bowel disease mucosa, **629**
**epithelial permeability,** Cytokine regulation of epithelial permeability and ion transport: *review*, **283**
**epithelium,** Modulation of distal colonic epithelial barrier function by dietary fibre in normal rats, **394**
**eradication therapy,** Effect of *Helicobacter pylori* infection and its eradication on cell proliferation, DNA status, and oncogene expression in patients with chronic gastritis, **789**
***Escherichia coli* STa,** Vagotomy inhibits the jejunal fluid secretion activated by luminal ileal *Escherichia coli* STa in the rat in vivo, **615**
**E-selectin,** Anti-inflammatory drugs and endothelial cell adhesion molecule expression in murine vascular beds, **186**
**ethanol,** Ciprofloxacin decreases the rate of ethanol elimination in humans, **347**
**evidence-based medicine,** An evidence-based appraisal of reflux disease management—the Genval Workshop Report, **S1**
**exercise test,** Increased gastric $P_{CO_2}$ during exercise is indicative of gastric ischaemia: a tonometric study, **163**
**extracellular matrix,** Increased expression of mRNA for matrix metalloproteinases-1 and -3 and tissue inhibitor of metalloproteinases-1 in intestinal biopsy specimens from patients with coeliac disease, **17**
What keeps hepatocytes on the straight and narrow? Maintaining differentiated function in the liver: *leader*, **443**

Ileal pouch-anal anastomosis for Crohn's disease: *letter,* **440**
Intolerance of the dirty intestine: *commentary,* **774**
Linkage of Crohn's disease to the major histocompatibility complex (MHC) region is detected by multiple non-parametric analyses, **519**
Management of bone disease in patients on long term glucocorticoid therapy: *leader,* **770**
Mast cells are an important cellular source of tumour necrosis factor α in human intestinal tissue, **643**
Paroxysmal nocturnal haemoglobinuria mimicking Crohn's disease , **889**
Peripheral arthropathies in inflammatory bowel disease: *letter,* **439**
Quality of life in patients receiving home parenteral nutrition, **844**
Role of nitric oxide in intestinal water and electrolyte transport: *leader,* **143**
T cell specificity and cross reactivity towards enterobacteria, *Bacteroides*, *Bifidobacterium*, and antigens from resident intestinal flora in humans, **812**
**injectional therapy,** Comparison of adrenaline injection and bipolar electrocoagulation for the arrest of peptic ulcer bleeding, **715**
**innervation,** Oesophageal epithelial innervation in health and reflux oesophagitis, **317**
**insulin-like growth factors,** Expression of the insulin-like growth factors and their receptors in adenocarcinoma of the colon, **704**
**intercellular adhesion molecule 1,** Anti-inflammatory drugs and endothelial cell adhesion molecule expression in murine vascular beds, **186**
**interferon γ receptor,** Acquired interferon γ responsiveness during Caco-2 cell differentiation: effects on iNOS gene expression, **659**
**interstitial cells of Cajal,** Interstitial cells of Cajal in the human fetal small bowel as shown by c-kit immunohistochemistry, **65**
**intestinal complications,** Transabdominal bowel sonography in Crohn's disease: *commentary,* **6**
**intestinal epithelium,** Acquired interferon γ responsiveness during Caco-2 cell differentiation: effects on iNOS gene expression, **659**
**intestinal flora,** Intolerance of the dirty intestine: *commentary,* **774**
T cell specificity and cross reactivity towards enterobacteria, *Bacteroides*, *Bifidobacterium*, and antigens from resident intestinal flora in humans, **812**
**intestinal fluid secretion,** Vagotomy inhibits the jejunal fluid secretion activated by luminal ileal *Escherichia coli* STa in the rat in vivo, **615**
**intestinal inflammation,** Divergency of leptin response in intestinal inflammation: *leader,* **588**
**intestinal injury,** Bovine colostrum is a health food supplement which prevents NSAID induced gut damage, **653**
**intestinal neuronal dysplasia,** Rectal biopsy for diagnosis of intestinal neuronal dysplasia in children: a prospective multicentre study on interobserver variation and clinical outcome, **853**
**intestinal permeability,** Geography of intestinal permeability and absorption, **483**
**intestinal transit,** The role of psychological and biological factors in postinfective gut dysfunction, **400**
**intestinal water and electrolyte transport,** Role of nitric oxide in intestinal water and electrolyte transport: *leader,* **143**
**intestine,** Acute increase stimulated by prostaglandin $E_2$ in glucose absorption via the sodium dependent glucose transporter-1 in rat intestine, **490**
Gallstones: an intestinal disease?: *review,* **435**
Intestinal IgA: novel views on its function in the defence of the largest mucosal surface: *leader,* **2**
Oral tolerance in disease: *review,* **137**
The effects of glutamine on intestinal epithelial cell proliferation in parenterally fed rats, **608**
**intraepithelial lymphocytes,** Giardia induces proliferation and interferon γ production by intestinal lymphocytes, **342**
**intraluminal electric impedence,** Gas and liquid reflux during transient lower oesophageal sphincter relaxation: *letter,* **897**
**intraluminal electrical impedance,** Patterns of gas and liquid reflux during transient lower oesophageal sphincter relaxation: a study using intraluminal electrical impedance, **47**
**ion transport,** Cytokine regulation of epithelial permeability and ion transport: *review,* **283**
**iron overload,** *HFE* and alcoholic liver disease: *letter,* **439**
**irritable bowel syndrome,** Mind over matter in the postinfective irritable bowel: *commentary,* **306**
The quality of quality of life: *commentary,* **450**
The role of psychological and biological factors in postinfective gut dysfunction, **400**
Validation of a specific quality of life questionnaire for functional digestive disorders, **527**

**Japanese,** *Helicobacter pylori*, CagA, the *cag* pathogenicity island and *Helicobacter pylori* virulence: *commentary,* **307**
Mutations in exon 2 and 3 of the cationic trypsinogen gene in Japanese families with hereditary pancreatitis, **259**
Structure of *cag* pathogenicity island in Japanese *Helicobacter pylori* isolates, **336**
**joining region,** Biased $J_H$ usage in plasma cell immunoglobulin gene sequences from colonic mucosa in ulcerative colitis but not in Crohn's disease, **382**
**K-*ras*,** Genetic epidemiology of mutated K-*ras* proto-oncogene, altered suppressor genes, and microsatellite instability in colorectal adenomas, **826**
Molecular screening of patients with long standing extensive ulcerative colitis: detection of p53 and Ki-*ras* mutations by single strand conformation polymorphism analysis and differential hybridisation in colonic lavage fluid, **822**

**β lactam,** Characterisation of penicillin G uptake in human small intestinal brush border membrane vesicles, **620**
**β-lactoglobulin sensitisation** Involvement of tachykinin receptors in sensitisation to cow's milk proteins in guinea pigs, **497**
**lactulose,** Comparison of a low dose polyethylene glycol electrolyte solution with lactulose for treatment of chronic constipation, **226**
Different intestinal permeability patterns in relatives and spouses of patients with Crohn's disease: an inherited defect in mucosal defence?, **96**
**lamina propria lymphocytes,** Giardia induces proliferation and interferon γ production by intestinal lymphocytes, **342**
**large bowel transit time,** Prolonged large bowel transit increases serum deoxycholic acid: a risk factor for octreotide induced gallstones, **675**
**L-arginine,** Proabsorptive and prosecretory roles for nitric oxide in cholera toxin induced secretion, **33**
**laser,** Clinical spectral characterisation of colonic mucosal lesions using autofluorescence and δ aminolevulinic acid sensitisation, **511**
**lectins,** Beans means lectins: *commentary,* **593**
*Vicia faba* agglutinin, the lectin present in broad beans, stimulates differentiation of undifferentiated colon cancer cells, **709**
**leptin,** Divergency of leptin response in intestinal inflammation: *leader,* **588**
Gastric leptin: *science alert,* **153**
**leucocyte adhesion,** The role of xanthine oxidase in platelet activating factor induced intestinal injury in the rat, **203**
**linkage,** Linkage of Crohn's disease to the major histocompatibility complex (MHC) region is detected by multiple non-parametric analyses, **519**
**lipase,** Underestimation of acute pancreatitis: patients with only a small increase in amylase/lipase levels can also have or develop severe acute pancreatitis, **542**
**lipids,** Effect of long term simvastatin administration as an adjunct to ursodeoxycholic acid: evidence for a synergistic effect on biliary bile acid composition but not on serum lipids in humans, **552**
**liquid meal,** Scintigraphic validation of a magnetic resonance imaging method to study gastric emptying of a solid meal in humans, **106**
**liver,** Hepatitis C virus (HCV) specific immune responses in anti-HCV positive patients without hepatitis C viraemia, **424**
Mesalazine (5-aminosalicylic acid) induced chronic hepatitis, **886**

Relation between GB virus C/hepatitis G virus and fulminant hepatic failure may be secondary to treatment with contaminated blood and/or blood products, **274**
Serum hepatocyte growth factor as an index of extensive catabolism of patients awaiting liver transplantation, **862**
Clinical course and risk factors of hepatitis C virus related liver disease in the general population: report from the Dionysos study, **874**
*HFE* and alcoholic liver disease: *letter*, **439**
**liver transplantation,** Hepatitis C virus recurrence after liver transplantation: *review*, **575**
Predicting bone loss following orthotopic liver transplantation, **430**
**loss of 18q,** Genetic epidemiology of mutated K-ras proto-oncogene, altered suppressor genes, and microsatellite instability in colorectal adenomas, **826**
**lower oesophageal sphincter,** Back to the whale bone?: *commentary*, **149**
Gas and liquid reflux during transient lower oesophageal sphincter relaxation: *letter*, **897**
Patterns of gas and liquid reflux during transient lower oesophageal sphincter relaxation: a study using intraluminal electrical impedance, **47**
Preservation of postural control of transient lower oesophageal sphincter relaxations in patients with reflux oesophagitis, **313**
The effect of hiatus hernia on gastro-oesophageal junction pressure, **476**
The hiatus hernia slides back into prominence: *commentary*, **449**
**lymphocytes,** Phenotypic and functional characterisation of myofibroblasts, macrophages, and lymphocytes migrating out of the human gastric lamina propria following the loss of epithelial cells, **323**

**macrolide,** Direct detection of *Helicobacter pylori* resistance to macrolides by a polymerase chain reaction/DNA enzyme immunoassay in gastric biopsy specimens, **463**
*Helicobacter pylori* resists arrest: *commentary*, **447**
**macrophages,** Inhibition of nuclear factor-κB activation improves the survival of rats with taurocholate pancreatitis, **253**
Phenotypic and functional characterisation of myofibroblasts, macrophages, and lymphocytes migrating out of the human gastric lamina propria following the loss of epithelial cells, **323**
**magnetic resonance cholangiography,** Use of magnetic resonance cholangiography in the diagnosis of choledocholithiasis: prospective comparison with a reference imaging method, **118**
**magnetic resonance imaging,** Scintigraphic validation of a magnetic resonance imaging method to study gastric emptying of a solid meal in humans, **106**
**malnutrition,** Percutaneous endoscopic gastrostomy feeding in patients with cystic fibrosis, **87**
**mannitol,** Different intestinal permeability patterns in relatives and spouses of patients with Crohn's disease: an inherited defect in mucosal defence?, **96**
**manometry,** An ambulant porcine model of acid reflux used to evaluate endoscopic gastroplasty, **782**
The effect of hiatus hernia on gastro-oesophageal junction pressure, **476**
The hiatus hernia slides back into prominence: *commentary*, **449**
**mast cells,** Mast cells are an important cellular source of tumour necrosis factor α in human intestinal tissue, **643**
**matrix metalloproteinases,** Increased expression of mRNA for matrix metalloproteinases-1 and -3 and tissue inhibitor of metalloproteinases-1 in intestinal biopsy specimens from patients with coeliac disease, **17**
Proteolytic release of membrane bound intercellular regulators: *science alert*, **454**
**measles virus,** Measles virus and Crohn's disease: *letter*, **896**
**mechanical ventilation,** Ranitidine reduced clinically important gastrointestinal bleeding in patients who required mechanical ventilation: *abstract*, **10**
**6-mercaptopurine,** 5-Aminosalicylic acid prevents oxidant mediated damage of glyceraldehyde-3-phosphate dehydrogenase in colon epithelial cells, **180**
**mesalazine,** Balsalazide led to greater remission rates and tolerance than mesalamine in acute ulcerative colitis: *abstract*, **455**
Mesalazine (5-aminosalicylic acid) induced chronic hepatitis, **886**
**mesocaval shunt,** Budd-Chiari syndrome: blocked veins, open mind: *commentary*, **452**
Managing Budd-Chiari syndrome: a retrospective review of percutaneous hepatic vein angioplasty and surgical shunting, **568**
**metabolism,** Ciprofloxacin decreases the rate of ethanol elimination in humans, **347**
**metronidazole,** 5-Aminosalicylic acid prevents oxidant mediated damage of glyceraldehyde-3-phosphate dehydrogenase in colon epithelial cells, **180**
**microsatellite instability,** Genetic epidemiology of mutated K-ras proto-oncogene, altered suppressor genes, and microsatellite instability in colorectal adenomas, **826**
Microsatellite instability—a useful diagnostic tool to select patients at high risk for hereditary non-polyposis colorectal cancer: a study in different groups of patients with colorectal cancer, **839**
**migrating motor complex,** Evidence that nitric oxide mechanisms regulate small intestinal motility in humans, **72**
Gallstones: an intestinal disease?: *review*, **435**
Nitric oxide and the migrating motor complex: *commentary*, **7**
**mitogen activated protein kinase (MAPK),** Expression and activity of mitogen activated protein kinases in human colorectal carcinoma, **834**
**molecular screening,** Molecular screening of patients with long standing extensive ulcerative colitis: detection of p53 and Ki-*ras* mutations by single strand conformation polymorphism analysis and differential hybridisation in colonic lavage fluid, **822**
**monocyte chemotactic protein 3,** Enhanced production of monocyte chemotactic protein 3 in inflammatory bowel disease mucosa, **629**
**morphometry,** *Bacteroides fragilis* toxin 2 damages human colonic mucosa in vitro, **504**
**mortality,** Underestimation of acute pancreatitis: patients with only a small increase in amylase/lipase levels can also have or develop severe acute pancreatitis, **542**
Validation of the Rockall risk scoring system in upper gastrointestinal bleeding, **331**
**motility,** Evidence that nitric oxide mechanisms regulate small intestinal motility in humans, **72**
Gallstones: an intestinal disease?: *review*, **435**
Nitric oxide and the migrating motor complex: *commentary*, **7**
Selective stimulation of colonic transit by the benzofuran $5HT_4$ agonist, prucalopride, in healthy humans, **682**
**mouth to caecum transit time,** Prolonged large bowel transit increases serum deoxycholic acid: a risk factor for octreotide induced gallstones, **675**
**MRCP,** MRCP and the diagnosis of suspected bile duct obstruction: *letter*, **765**
**mRNA,** Expression of Fas ligand by human gastric adenocarcinomas: a potential mechanism of immune escape in stomach cancer, **156**
**MUC2,** Sulphation and secretion of the predominant secretory human colonic mucin MUC2 in ulcerative colitis, **387**
**mucin,** Sulphation and secretion of the predominant secretory human colonic mucin MUC2 in ulcerative colitis, **387**
**mucosa associated lymphoid tissue lymphomas,** Aggressive mucosa associated lymphoid tissue lymphomas are associated with mutations in *Bcl10* : *science alert*, **778**
**mucosal immunity,** Intestinal IgA: novel views on its function in the defence of the largest mucosal surface: *leader*, **2**
Intolerance of the dirty intestine: *commentary*, **774**
Oral tolerance in disease: *review*, **137**
T cell specificity and cross reactivity towards enterobacteria, *Bacteroides*, *Bifidobacterium*, and antigens from resident intestinal flora in humans, **812**
**mucosal repair,** Trefoil peptides: *review*, **890**
**multiple organ dysfunction,** Inhibition of nuclear factor-κB activation improves the survival of rats with taurocholate pancreatitis, **253**
**muscarinic receptor,** Indirect evidence for cholinergic inhibition of intestinal bicarbonate absorption in humans, **353**
**mycophenolate mofetil,** Is mycophenolate mofetil a new alternative in the treatment of inflammatory bowel disease?: *commentary*, **592**
Randomised trial of mycophenolate mofetil versus azathioprine for treatment of chronic active Crohn's disease, **625**
**myenteric plexus,** Interstitial cells of Cajal in the human fetal small bowel as shown by c-kit immunohistochemistry, **65**
Notable postnatal alterations in the myenteric plexus of normal human bowel, **666**
**myofibroblasts,** Phenotypic and functional characterisation of myofibroblasts, macrophages, and lymphocytes migrating out of the human gastric lamina propria following the loss of epithelial cells, **323**

**N21I,** Genes means pancreatitis: *commentary*, **150**
**natural course,** The natural course of hepatitis C virus infection 18 years following an epidemic outbreak of non-A, non-B hepatitis in a plasmapheresis centre, **563**
**neoplasia,** Trefoil peptides: *review*, **890**
**neural crest cells,** Expression of endothelin 3 by mesenchymal cells of embryonic mouse caecum, **246**
**neurone density,** Notable postnatal alterations in the myenteric plexus of normal human bowel, **666**
**neuropeptides,** Oesophageal epithelial innervation in health and reflux oesophagitis, **317**
**neutrophils,** The role of xanthine oxidase in platelet activating factor induced intestinal injury in the rat, **203**
**nitric oxide,** Evidence that nitric oxide mechanisms regulate small intestinal motility in humans, **72**
Excess nitric oxide in ulcerative colitis may be generated by nitric oxide synthase independent pathways: *letter*, **441**
Hepatic and splanchnic nitric oxide activity in patients with cirrhosis, **749**
Notable postnatal alterations in the myenteric plexus of normal human bowel, **666**
Nitric oxide and the migrating motor complex: *commentary*, **7**
Proabsorptive and prosecretory roles for nitric oxide in cholera toxin induced secretion, **33**

Role of nitric oxide in intestinal water and electrolyte transport: *leader*, **143**
Vagotomy inhibits the jejunal fluid secretion activated by luminal ileal *Escherichia coli* STa in the rat in vivo, **615**
**nitric oxide synthase,** Acquired interferon γ responsiveness during Caco-2 cell differentiation: effects on iNOS gene expression, **659**
Excess nitric oxide in ulcerative colitis may be generated by nitric oxide synthase independent pathways: *letter*, **441**
**nitric oxide synthase inhibitors,** Proabsorptive and prosecretory roles for nitric oxide in cholera toxin induced secretion, **33**
**nitrogen economy,** Total parenteral nutrition with glutamine dipeptide shortened hospital stays and improved immune status and nitrogen economy after major abdominal surgery: *abstract*, **155**
**NK receptors,** Involvement of tachykinin receptors in sensitisation to cow's milk proteins in guinea pigs, **497**
**non-A hepatitis,** The natural course of hepatitis C virus infection 18 years following an epidemic outbreak of non-A, non-B hepatitis in a plasmapheresis centre, **563**
**non-alcoholic duct destructive chronic pancreatitis,** "Non-alcoholic duct destructive chronic pancreatitis" or "primary chronic pancreatitis"?: *letter*, **579**
**non-B hepatitis,** The natural course of hepatitis C virus infection 18 years following an epidemic outbreak of non-A, non-B hepatitis in a plasmapheresis centre, **563**
**non-invasive sugar absorption/permeability test,** Geography of intestinal permeability and absorption, **483**
**non-steroidal anti-inflammatory drugs,** Anti-inflammatory drugs and variceal bleeding: a case-control study, **270**
**non-ulcer dyspepsia,** Gastric accommodation in non-ulcer dyspepsia and the roles of *Helicobacter pylori* infection and vagal function, **55**
**nuclear factor κB,** Activation of nuclear factor κB as a target for anti-inflammatory therapy: *science alert*, **309**
Inhibition of nuclear factor-κB activation improves the survival of rats with taurocholate pancreatitis, **253**
**nurse endoscopists,** A UK training programme for nurse practitioner flexible sigmoidoscopy: *letter*, **897**
**nutrition,** Bovine colostrum is a health food supplement which prevents NSAID induced gut damage, **653**
Dietary polyamines are essential luminal growth factors for small intestinal and colonic mucosal growth and development, **12**

***ob* gene,** Gastric leptin: *science alert*, **153**
**obesity,** Divergency of leptin response in intestinal inflammation: *leader*, **588**
**octreotide,** Prolonged large bowel transit increases serum deoxycholic acid: a risk factor for octreotide induced gallstones, **675**
**oesophageal cancer,** Barrett's oesophagus and colorectal neoplasia: scope for screening?: *commentary*, **775**
No association between colon cancer and adenocarcinoma of the oesophagus in a population based cohort study in Sweden, **819**
**oesophageal manometry,** Gas and liquid reflux during transient lower oesophageal sphincter relaxation: *letter*, **897**
Patterns of gas and liquid reflux during transient lower oesophageal sphincter relaxation: a study using intraluminal electrical impedance, **47**
Preservation of postural control of transient lower oesophageal sphincter relaxations in patients with reflux oesophagitis, **313**
**oesophageal mucosal injury,** Double reflux: double trouble: *commentary*, **590**
**oesophagitis,** An evidence-based appraisal of reflux disease management—the Genval Workshop Report, **S1**
**oestradiol,** Inhibitory effect of oestradiol on activation of rat hepatic stellate cells in vivo and in vitro, **127**
**omeprazole,** *Helicobacter pylori* infection potentiates the inhibition of gastric acid secretion by omeprazole, **468**
Omeprazole: *Helicobacter pylori* makes thee greater yet: *commentary*, **448**
**ondansetron,** Cisplatin impairs fluid and electrolyte absorption in rat small intestine: a role for 5-hydroxytryptamine, **174**
**oral administration,** Characterisation of penicillin G uptake in human small intestinal brush border membrane vesicles, **620**
**oral contraceptives,** Smoking, use of oral contraceptives, and medical induction of remission were risk factors for relapse in Crohn's disease: *abstract*, **311**
**oral tolerance,** Oral tolerance in disease: *review*, **137**
**ornithine decarboxylase,** Dietary polyamines are essential luminal growth factors for small intestinal and colonic mucosal growth and development, **12**
**orthotopic liver transplantation,** Thrombopoietin concentrations are low in patients with cirrhosis and thrombocytopenia and are restored after orthotopic liver transplantation, **754**
**osteoporosis,** Management of bone disease in patients on long term glucocorticoid therapy: *leader*, **770**
**oxidants,** 5-Aminosalicylic acid prevents oxidant mediated damage of glyceraldehyde-3-phosphate dehydrogenase in colon epithelial cells, **180**
**p53,** Adenovirus mediated p53 tumour suppressor gene therapy for human gastric cancer cells in vitro and in vivo, **366**
Molecular screening of patients with long standing extensive ulcerative colitis: detection of p53 and Ki-*ras* mutations by single strand conformation polymorphism analysis and differential hybridisation in colonic lavage fluid, **822**
**p53 gene,** Genetic epidemiology of mutated K-ras proto-oncogene, altered suppressor genes, and microsatellite instability in colorectal adenomas, **826**
**pancreatic cancer,** Towards immunotherapy of pancreatic cancer: *leader*, **767**
**pancreatic fibrosis,** New kids on the block: pancreatic stellate cells enter the fibrogenesis world: *commentary*, **451**
Pancreatic stellate cells are activated by proinflammatory cytokines: implications for pancreatic fibrogenesis, **534**
**pancreatic insufficiency,** Immunoreactive pancreatic Reg protein in sera from cystic fibrosis patients with and without pancreatic insufficiency, **545**
**pancreatitis,** Inhibition of nuclear factor-κB activation improves the survival of rats with taurocholate pancreatitis, **253**
Mutations in exon 2 and 3 of the cationic trypsinogen gene in Japanese families with hereditary pancreatitis, **259**
**paracellular permeability,** Modulation of distal colonic epithelial barrier function by dietary fibre in normal rats, **394**
**parasite,** Giardia induces proliferation and interferon γ production by intestinal lymphocytes, **342**
**parenteral nutrition,** Quality of life in patients receiving home parenteral nutrition, **844**
The effects of glutamine on intestinal epithelial cell proliferation in parenterally fed rats, **608**
**paroxysmal nocturnal haemoglobinuria,** Paroxysmal nocturnal haemoglobinuria mimicking Crohn's disease , **889**
**pathogenicity island,** CagA, the *cag* pathogenicity island and *Helicobacter pylori* virulence: *commentary*, **307**
Structure of *cag* pathogenicity island in Japanese *Helicobacter pylori* isolates, **336**
**pepsinogen,** Accuracy of screening for gastric cancer using serum pepsinogen concentrations, **693**
**peptic ulcer,** Comparison of adrenaline injection and bipolar electrocoagulation for the arrest of peptic ulcer bleeding, **715**
The *Helicobacter pylori* breath test: a surrogate marker for peptic ulcer disease in dyspeptic patients: *letter*, **582**
**perception,** Perception of and adaptation to rectal isobaric distension in patients with faecal incontinence, **687**
**percutaneous endoscopic gastrostomy,** Percutaneous endoscopic gastrostomy feeding in patients with cystic fibrosis, **87**
**percutaneous hepatic vein angioplasty,** Budd-Chiari syndrome: blocked veins, open mind: *commentary*, **452**
Managing Budd-Chiari syndrome: a retrospective review of percutaneous hepatic vein angioplasty and surgical shunting, **568**
**perinuclear antineutrophil cytoplasmic antibodies,** ANCAs away: *commentary*, **776**
**perinuclear anti-neutrophil cytoplasmic antibodies,** High mobility group (HMG) non-histone chromosomal proteins HMG1 and HMG2 are significant target antigens of perinuclear anti-neutrophil cytoplasmic antibodies in autoimmune hepatitis, **867**
**peripheral arthropathy,** Peripheral arthropathies in inflammatory bowel disease: *letter*, **439**
**peroxynitrite,** Excess nitric oxide in ulcerative colitis may be generated by nitric oxide synthase independent pathways: *letter*, **441**
**pH,** Potassium secretion in rat distal colon during dietary potassium loading: role of pH regulated apical potassium channels, **40**
**pH gradient,** Characterisation of penicillin G uptake in human small intestinal brush border membrane vesicles, **620**
**phospholipase $A_2$,** Phospholipase $A_2$ and acute pancreatitis in rats: *letter*, **297**
**plasmapheresis,** The natural course of hepatitis C virus infection 18 years following an epidemic outbreak of non-A, non-B hepatitis in a plasmapheresis centre, **563**
**platelets,** Thrombopoietin concentrations are low in patients with cirrhosis and thrombocytopenia and are restored after orthotopic liver transplantation, **754**
**pneumatic dilatation,** Botulinum toxin versus pneumatic dilatation in the treatment of achalasia: a randomised trial, **231**
**polarity,** Beans means lectins: *commentary*, **593**
*Vicia faba* agglutinin, the lectin present in broad beans, stimulates differentiation of undifferentiated colon cancer cells, **709**
**polyamine deficient diet,** Dietary polyamines are essential luminal growth factors for small intestinal and colonic mucosal growth and development, **12**
**polyamines,** Dietary polyamines are essential luminal growth factors for small intestinal and colonic mucosal growth and development, **12**
**polyethylene glycol,** Comparison of a low dose polyethylene glycol electrolyte solution with lactulose for treatment of chronic constipation, **226**
**polymerase chain reaction,** Direct detection of *Helicobacter pylori* resistance to macrolides by a polymerase chain reaction/DNA enzyme immunoassay in gastric biopsy specimens, **463**

*Helicobacter pylori* resists arrest: *commentary*, **447**
Screening for mutations of the cationic trypsinogen gene: are they of relevance in chronic alcoholic pancreatitis?, **413**
**polymorphism,** *HFE* and alcoholic liver disease: *letter*, **439**
**portacaval shunt,** Gastric antral vascular ectasia in cirrhotic patients: absence of relation with portal hypertension, **739**
**portal hypertension,** Anti-inflammatory drugs and variceal bleeding: a case-control study, **270**
Elevated carboxy terminal cross linked telopeptide of type I collagen in alcoholic cirrhosis: relation to liver and kidney function and bone metabolism, **417**
Gastric antral vascular ectasia in cirrhotic patients: absence of relation with portal hypertension, **739**
Hepatic and splanchnic nitric oxide activity in patients with cirrhosis, **749**
**portal pressure,** Single portal pressure measurement predicts survival in cirrhotic patients with recent bleeding, **264**
**portosystemic shunt,** Gastric antral vascular ectasia in cirrhotic patients: absence of relation with portal hypertension, **739**
**portosystemic stent shunt,** Cardiac function and haemodynamics in alcoholic cirrhosis and effects of the transjugular intrahepatic portosystemic stent shunt, **743**
**posture,** Preservation of postural control of transient lower oesophageal sphincter relaxations in patients with reflux oesophagitis, **313**
**potassium channels,** Potassium secretion in rat distal colon during dietary potassium loading: role of pH regulated apical potassium channels, **40**
**prednisolone,** 5-Aminosalicylic acid prevents oxidant mediated damage of glyceraldehyde-3-phosphate dehydrogenase in colon epithelial cells, **180**
**primary biliary cirrhosis,** PBC and the gut: the villi atrophy, the plot thickens: *commentary*, **594**
Risk of primary biliary liver cirrhosis in patients with coeliac disease: Danish and Swedish cohort data, **736**
**primary chronic pancreatitis,** "Non-alcoholic duct destructive chronic pancreatitis" or "primary chronic pancreatitis"?: *letter*, **579**
**prognosis,** Underestimation of acute pancreatitis: patients with only a small increase in amylase/lipase levels can also have or develop severe acute pancreatitis, **542**
**prognostic factors,** Validation of the Rockall risk scoring system in upper gastrointestinal bleeding, **331**
**proliferation,** Beans means lectins: *commentary*, **593**
*Vicia faba* agglutinin, the lectin present in broad beans, stimulates differentiation of undifferentiated colon cancer cells, **709**
Modulation of distal colonic epithelial barrier function by dietary fibre in normal rats, **394**
**prostaglandin,** Acute increase stimulated by prostaglandin $E_2$ in glucose absorption via the sodium dependent glucose transporter-1 in rat intestine, **490**
**protein,** Macromolecular transport across the rabbit proximal and distal colon, **218**
**proton pump inhibitor,** An evidence-based appraisal of reflux disease management—the Genval Workshop Report, **S1**
**prucalopride,** Selective stimulation of colonic transit by the benzofuran 5HT$_4$ agonist, prucalopride, in healthy humans, **682**
**P-selectin,** Anti-inflammatory drugs and endothelial cell adhesion molecule expression in murine vascular beds, **186**
**pseudomembranous colitis,** Bovine immunoglobulin concentrate-*Clostridium difficile* retains *C difficile* toxin neutralising activity after passage through the human stomach and small intestine, **212**
**pseudo-obstruction,** Endothelins, pseudo-obstruction and Hirschsprung's disease: *commentary*, **148**
**psychosomatic,** The role of psychological and biological factors in postinfective gut dysfunction, **400**
**pulmonary circulation,** Cardiac function and haemodynamics in alcoholic cirrhosis and effects of the transjugular intrahepatic portosystemic stent shunt, **743**
**pyrrolidine dithiocarbamate,** Inhibition of nuclear factor-κB activation improves the survival of rats with taurocholate pancreatitis, **253**

**quality of life,** Quality of life in patients receiving home parenteral nutrition, **844**
The quality of quality of life: *commentary*, **450**
Validation of a specific quality of life questionnaire for functional digestive disorders, **527**

**R117H,** Genes means pancreatitis: *commentary*, **150**
**Raf-1,** Expression and activity of mitogen activated protein kinases in human colorectal carcinoma, **834**
**randomised trial,** Comparison of a low dose polyethylene glycol electrolyte solution with lactulose for treatment of chronic constipation, **226**
**ranitidine,** Ranitidine reduced clinically important gastrointestinal bleeding in patients who required mechanical ventilation: *abstract*, **10**
**rat,** Acute increase stimulated by prostaglandin $E_2$ in glucose absorption via the sodium dependent glucose transporter-1 in rat intestine, **490**
Cisplatin impairs fluid and electrolyte absorption in rat small intestine: a role for 5-hydroxytryptamine, **174**
Inhibition of nuclear factor-κB activation improves the survival of rats with taurocholate pancreatitis, **253**
**reactive oxygen species,** The role of xanthine oxidase in platelet activating factor induced intestinal injury in the rat, **203**
**rebleeding,** Comparison of adrenaline injection and bipolar electrocoagulation for the arrest of peptic ulcer bleeding, **715**
Validation of the Rockall risk scoring system in upper gastrointestinal bleeding, **331**
**receiver operator characteristics curves,** Accuracy of screening for gastric cancer using serum pepsinogen concentrations, **693**
**rectal cancer,** Evidence of improving survival of patients with rectal cancer in France: a population based study, **377**
**rectal neoplasms,** Incidence of rectosigmoid adenomatous polyps in subjects without prior colorectal adenoma or cancer: a prospective cohort study, **372**
**rectal sensitivity,** The role of psychological and biological factors in postinfective gut dysfunction, **400**
**rectum,** Perception of and adaptation to rectal isobaric distension in patients with faecal incontinence, **687**
**recurrence,** Hepatitis C virus recurrence after liver transplantation: *review*, **575**
**reflux disease,** The effect of hiatus hernia on gastro-oesophageal junction pressure, **476**
The hiatus hernia slides back into prominence: *commentary*, **449**
**reflux oesophagitis,** Oesophageal epithelial innervation in health and reflux oesophagitis, **317**
Toxic bile acids in gastro-oesophageal reflux disease: influence of gastric acidity, **598**
**Reg protein,** Immunoreactive pancreatic Reg protein in sera from cystic fibrosis patients with and without pancreatic insufficiency, **545**
**repair,** Bovine colostrum is a health food supplement which prevents NSAID induced gut damage, **653**
Trefoil peptide TFF2 (spasmolytic polypeptide) potently accelerates healing and reduces inflammation in a rat model of colitis, **636**
**repertoire,** Biased $J_H$ usage in plasma cell immunoglobulin gene sequences from colonic mucosa in ulcerative colitis but not in Crohn's disease, **382**
**replication error,** Genetic epidemiology of mutated K-ras proto-oncogene, altered suppressor genes, and microsatellite instability in colorectal adenomas, **826**
**resection,** The effect of epidermal growth factor on brush border surface area and function in the distal remnant following resection in the rabbit, **26**
**resistance,** Direct detection of *Helicobacter pylori* resistance to macrolides by a polymerase chain reaction/DNA enzyme immunoassay in gastric biopsy specimens, **463**
*Helicobacter pylori* resists arrest: *commentary*, **447**
**retinyl palmitate,** Inhibitory effect of oestradiol on activation of rat hepatic stellate cells in vivo and in vitro, **127**
**risk,** PBC and the gut: the villi atrophy, the plot thickens: *commentary*, **594**
Risk of primary biliary liver cirrhosis in patients with coeliac disease: Danish and Swedish cohort data, **736**
**risk scoring,** Validation of the Rockall risk scoring system in upper gastrointestinal bleeding, **331**
**RNA,** Relation between GB virus C/hepatitis G virus and fulminant hepatic failure may be secondary to treatment with contaminated blood and/or blood products, **274**

**sacral nerve stimulation,** Effects of short term sacral nerve stimulation on anal and rectal function in patients with anal incontinence, **407**
**satiety,** Gastric leptin: *science alert*, **153**
Glucagon-like peptide-1: a potent regulator of food intake in humans, **81**
**scintigraphy,** Scintigraphic validation of a magnetic resonance imaging method to study gastric emptying of a solid meal in humans, **106**
**screening,** Accuracy of screening for gastric cancer using serum pepsinogen concentrations, **693**
Computed tomography colonography (virtual colonoscopy): a new method for colorectal screening: *leader*, **301**
**secretion,** Sulphation and secretion of the predominant secretory human colonic mucin MUC2 in ulcerative colitis, **387**
**sensitisation,** Involvement of tachykinin receptors in sensitisation to cow's milk proteins in guinea pigs, **497**
**serum,** Immunoreactive pancreatic Reg protein in sera from cystic fibrosis patients with and without pancreatic insufficiency, **545**
**severity,** Underestimation of acute pancreatitis: patients with only a small increase in amylase/lipase levels can also have or develop severe acute pancreatitis, **542**
**shock,** Comparison of adrenaline injection and bipolar electrocoagulation for the arrest of peptic ulcer bleeding, **715**
The role of xanthine oxidase in platelet activating factor induced intestinal injury in the rat, **203**
**short gut,** The effect of epidermal growth factor on brush border surface area and function in the distal remnant following resection in the rabbit, **26**
**short length hepatic vein stenosis,** Budd-Chiari syndrome: blocked veins, open mind: *commentary*, **452**

Managing Budd-Chiari syndrome: a retrospective review of percutaneous hepatic vein angioplasty and surgical shunting, **568**
**sickness impact profile,** Quality of life in patients receiving home parenteral nutrition, **844**
**sigmoid neoplasms,** Incidence of rectosigmoid adenomatous polyps in subjects without prior colorectal adenoma or cancer: a prospective cohort study, **372**
**simvastatin,** Effect of long term simvastatin administration as an adjunct to ursodeoxycholic acid: evidence for a synergistic effect on biliary bile acid composition but not on serum lipids in humans, **552**
Effect of long term simvastatin administration as an adjunct to ursodeoxycholic acid: evidence for a synergistic effect on biliary bile acid composition but not on serum lipids in humans, **552**
**small bowel transit time,** Effect of intravenous amino acids on interdigestive antroduodenal motility and small bowel transit time, **240**
**small intestinal transport,** Proabsorptive and prosecretory roles for nitric oxide in cholera toxin induced secretion, **33**
**small intestine,** Cisplatin impairs fluid and electrolyte absorption in rat small intestine: a role for 5-hydroxytryptamine, **174**
Evidence that nitric oxide mechanisms regulate small intestinal motility in humans, **72**
Indirect evidence for cholinergic inhibition of intestinal bicarbonate absorption in humans, **353**
Nitric oxide and the migrating motor complex: *commentary*, **7**
**smoking,** Smoking, use of oral contraceptives, and medical induction of remission were risk factors for relapse in Crohn's disease: *abstract*, **311**
**α smooth muscle actin,** Inhibitory effect of oestradiol on activation of rat hepatic stellate cells in vivo and in vitro, **127**
**sodium dependent glucose transporter (SGLT1),** Acute increase stimulated by prostaglandin $E_2$ in glucose absorption via the sodium dependent glucose transporter-1 in rat intestine, **490**
**solid meal,** Scintigraphic validation of a magnetic resonance imaging method to study gastric emptying of a solid meal in humans, **106**
**spasmolytic polypeptide,** Trefoil peptide TFF2 (spasmolytic polypeptide) potently accelerates healing and reduces inflammation in a rat model of colitis, **636**
**sporadic colorectal cancer,** Microsatellite instability—a useful diagnostic tool to select patients at high risk for hereditary non-polyposis colorectal cancer: a study in different groups of patients with colorectal cancer, **839**
**stage at diagnosis,** Evidence of improving survival of patients with rectal cancer in France: a population based study, **377**
**stellate cell activation,** New kids on the block: pancreatic stellate cells enter the fibrogenesis world: *commentary*, **451**
Pancreatic stellate cells are activated by proinflammatory cytokines: implications for pancreatic fibrogenesis, **534**
**stomach,** Collagenous gastritis and collagenous colitis: a report with sequential histological and ultrastructural findings, **881**
Phenotypic and functional characterisation of myofibroblasts, macrophages, and lymphocytes migrating out of the human gastric lamina propria following the loss of epithelial cells, **323**
**stricture,** Transabdominal bowel sonography for the detection of intestinal complications in Crohn's disease, **112**
**sulphation,** Sulphation and secretion of the predominant secretory human colonic mucin MUC2 in ulcerative colitis, **387**
**surface area,** The effect of epidermal growth factor on brush border surface area and function in the distal remnant following resection in the rabbit, **26**
**survival,** Evidence of improving survival of patients with rectal cancer in France: a population based study, **377**
**symptoms,** Cholecystokinin provocation tests: *letter*, **580**
**systemic circulation,** Cardiac function and haemodynamics in alcoholic cirrhosis and effects of the transjugular intrahepatic portosystemic stent shunt, **743**

**T cell mediated cytotoxicity,** Giardia induces proliferation and interferon γ production by intestinal lymphocytes, **342**
**T cells,** Intolerance of the dirty intestine: *commentary*, **774**
T cell specificity and cross reactivity towards enterobacteria, *Bacteroides*, *Bifidobacterium*, and antigens from resident intestinal flora in humans, **812**
**T helper cytokines,** Hepatitis C virus (HCV) specific immune responses in anti-HCV positive patients without hepatitis C viraemia, **424**
**tachykinins,** Involvement of tachykinin receptors in sensitisation to cow's milk proteins in guinea pigs, **497**
**TFF2,** Trefoil peptide TFF2 (spasmolytic polypeptide) potently accelerates healing and reduces inflammation in a rat model of colitis, **636**
**TGFβRII,** Genetic epidemiology of mutated K-ras proto-oncogene, altered suppressor genes, and microsatellite instability in colorectal adenomas, **826**
**Th1/Th2 cells,** Hepatitis C virus (HCV) specific immune responses in anti-HCV positive patients without hepatitis C viraemia, **424**
**thrombocytopenia,** Thrombopoietin concentrations are low in patients with cirrhosis and thrombocytopenia and are restored after orthotopic liver transplantation, **754**
**thrombopoietin,** Thrombopoietin concentrations are low in patients with cirrhosis and thrombocytopenia and are restored after orthotopic liver transplantation, **754**
**time trends,** Evidence of improving survival of patients with rectal cancer in France: a population based study, **377**
**TIMP-1,** Increased expression of mRNA for matrix metalloproteinases-1 and -3 and tissue inhibitor of metalloproteinases-1 in intestinal biopsy specimens from patients with coeliac disease, **17**
**tonometry,** Increased gastric $P_{CO_2}$ during exercise is indicative of gastric ischaemia: a tonometric study, **163**
**total parenteral nutrition,** Effect of intravenous amino acids on interdigestive antroduodenal motility and small bowel transit time, **240**
Total parenteral nutrition with glutamine dipeptide shortened hospital stays and improved immune status and nitrogen economy after major abdominal surgery: *abstract*, **155**
**toxic hepatitis,** The natural history of histologically proved drug induced liver disease, **731**
**toxin,** Bovine immunoglobulin concentrate-*Clostridium difficile* retains *C difficile* toxin neutralising activity after passage through the human stomach and small intestine, **212**
**toxin mediated colonocyte damage,** *Bacteroides fragilis* toxin 2 damages human colonic mucosa in vitro, **504**
**training,** Do gastroenterologists want to be trained in ultrasound? A national survey of trainees in gastroenterology, **123**
**transabdominal bowel sonography,** Transabdominal bowel sonography in Crohn's disease: *commentary*, **6**
**transcription factors,** What keeps hepatocytes on the straight and narrow? Maintaining differentiated function in the liver: *leader*, **443**
**transepithelial resistance,** *Bacteroides fragilis* toxin 2 damages human colonic mucosa in vitro, **504**
**transient lower oesophageal sphincter relaxation,** Cholinergic blockade inhibits gastro-oesophageal reflux and transient lower oesophageal sphincter relaxation through a central mechanism, **603**
**transit,** Selective stimulation of colonic transit by the benzofuran $5HT_4$ agonist, prucalopride, in healthy humans, **682**
**transplantation,** Serum hepatocyte growth factor as an index of extensive catabolism of patients awaiting liver transplantation, **862**
**transport,** Macromolecular transport across the rabbit proximal and distal colon, **218**
**treatment,** Evidence of improving survival of patients with rectal cancer in France: a population based study, **377**
**trefoil factor family,** Trefoil peptides: *review*, **890**
**trefoil peptide,** Trefoil peptide TFF2 (spasmolytic polypeptide) potently accelerates healing and reduces inflammation in a rat model of colitis, **636**
**tropical enteropathy,** Geography of intestinal permeability and absorption, **483**
**trypsinogen,** Mutations in exon 2 and 3 of the cationic trypsinogen gene in Japanese families with hereditary pancreatitis, **259**
**trypsinogen mutation,** Screening for mutations of the cationic trypsinogen gene: are they of relevance in chronic alcoholic pancreatitis?, **413**
**tumour,** Expression of Fas ligand by human gastric adenocarcinomas: a potential mechanism of immune escape in stomach cancer, **156**
**tumour necrosis factor,** Linkage of Crohn's disease to the major histocompatibility complex (MHC) region is detected by multiple non-parametric analyses, **519**
Mast cells are an important cellular source of tumour necrosis factor α in human intestinal tissue, **643**
**tumour necrosis factor α,** Proteolytic release of membrane bound intercellular regulators: *science alert*, **454**

**ulcerative colitis,** Anticipating the onset of inflammatory bowel disease: *commentary*, **773**
Balsalazide led to greater remission rates and tolerance than mesalamine in acute ulcerative colitis: *abstract*, **455**
Biased $J_H$ usage in plasma cell immunoglobulin gene sequences from colonic mucosa in ulcerative colitis but not in Crohn's disease, **382**
Colonoscopic surveillance in ulcerative colitis: *letter*, **579**
Diversion colitis: a trigger for ulcerative colitis in the in-stream colon?, **279**
Enhanced production of monocyte chemotactic protein 3 in inflammatory bowel disease mucosa, **629**
Excess nitric oxide in ulcerative colitis may be generated by nitric oxide synthase independent pathways: *letter*, **441**
Ileal pouch-anal anastomosis for Crohn's disease: *letter*, **440**
Molecular screening of patients with long standing extensive ulcerative colitis: detection of p53 and Ki-*ras* mutations by single strand conformation polymorphism analysis and differential hybridisation in colonic lavage fluid, **822**
Peripheral arthropathies in inflammatory bowel disease: *letter*, **439**
Sulphation and secretion of the predominant secretory human colonic mucin MUC2 in ulcerative colitis, **387**
Why children with inflammatory bowel disease are diagnosed at a younger age than their affected parent, **808**
**ultrasound,** Do gastroenterologists want to be trained in ultrasound? A national survey of trainees in gastroenterology, **123**

**upper gastrointestinal bleeding,** Validation of the Rockall risk scoring system in upper gastrointestinal bleeding, **331**
**urease,** Role of apoptosis induced by *Helicobacter pylori* infection in the development of duodenal ulcer, **456**
**ursodeoxycholic acid,** Effect of long term simvastatin administration as an adjunct to ursodeoxycholic acid: evidence for a synergistic effect on biliary bile acid composition but not on serum lipids in humans, **552**

**vagal function,** Gastric accommodation in non-ulcer dyspepsia and the roles of *Helicobacter pylori* infection and vagal function, **55**
**vagus,** Vagotomy inhibits the jejunal fluid secretion activated by luminal ileal *Escherichia coli* STa in the rat in vivo, **615**
**validation,** Validation of a specific quality of life questionnaire for functional digestive disorders, **527**
**variceal bleeding,** Anti-inflammatory drugs and variceal bleeding: a case-control study, **270**
**vascular cell adhesion molecule 1,** Anti-inflammatory drugs and endothelial cell adhesion molecule expression in murine vascular beds, **186**
**ventricular function,** Cardiac function and haemodynamics in alcoholic cirrhosis and effects of the transjugular intrahepatic portosystemic stent shunt, **743**
**villus atrophy,** Increased expression of mRNA for matrix metalloproteinases-1 and -3 and tissue inhibitor of metalloproteinases-1 in intestinal biopsy specimens from patients with coeliac disease, **17**
Indirect evidence for cholinergic inhibition of intestinal bicarbonate absorption in humans, **353**
**viral clearance,** Hepatitis C virus (HCV) specific immune responses in anti-HCV positive patients without hepatitis C viraemia, **424**
**virtual colonoscopy,** Computed tomography colonography (virtual colonoscopy): a new method for colorectal screening: *leader,* **301**

**weight loss,** Divergency of leptin response in intestinal inflammation: *leader,* **588**
**whole mount preparation,** Notable postnatal alterations in the myenteric plexus of normal human bowel, **666**

**xanthine dehydrogenase,** The role of xanthine oxidase in platelet activating factor induced intestinal injury in the rat, **203**
